Профиль компании

Founded 1986

IPO 2001

Headquarters Taipei, Taiwan

Chairman Mr. Gene Renn

Capital US\$64 Million

Employees 1,500 (Engineers: 250+)

R&D Center Taipei, Hsinchu (Taiwan), Shanghai (China)

ISO Certificate ISO 9001 (Ver. 2008) ISO 14001 (Ver. 2004)

Развитие

Основана

1986 - 1998

- Founded in 1986
- Factory established in Taiwan & China
- Edimax USA established

Консолидация

1999 – 2007

- Listed on Taiwan stock exchange
- Europe Sales & Logistic Center established
- Edimax UK established
- R&D Center expanded

Развитие

2008 – 2015

- 30% global USB Adapter market share
- No.1 in customer satisfaction and performance by PC Pro Magazine 2010
- 2 million Wi-Fi devices sold 2013
- Taiwan Excellence Award winner for 15 consecutive years
- Top 35 Best Taiwanese Global Brands ranked by Interbrand

Agenda

- Introduction
- Корпоративное Wi-Fi решение
- Выполнение проекты
- Продукты
- Q & A

Решение корпоративного Wi-Fi

- ✓ Новый Wi-Fi стандарт 802.11AC & Dual Band & High Speed
- ✓ Бесшовный роуминг, поддержка 802.11R, 802.11K
- ✓ СМС авторизация
- ✓ High Density support
- ✓ High Power and sensitivity
- ✓ Технология Band Steering
- ✓ Captive Portal
- ✓ Программная обеспечение

$$\text{ROI} = \frac{\text{Функциональность + Надежность}}{\text{Цена}}$$

Dual-Band & High Speed

- Dual-Band Concurrent Wireless-AC configured.
- Up to 1750Mbps in both the 2.4GHz and 5GHz frequency bands

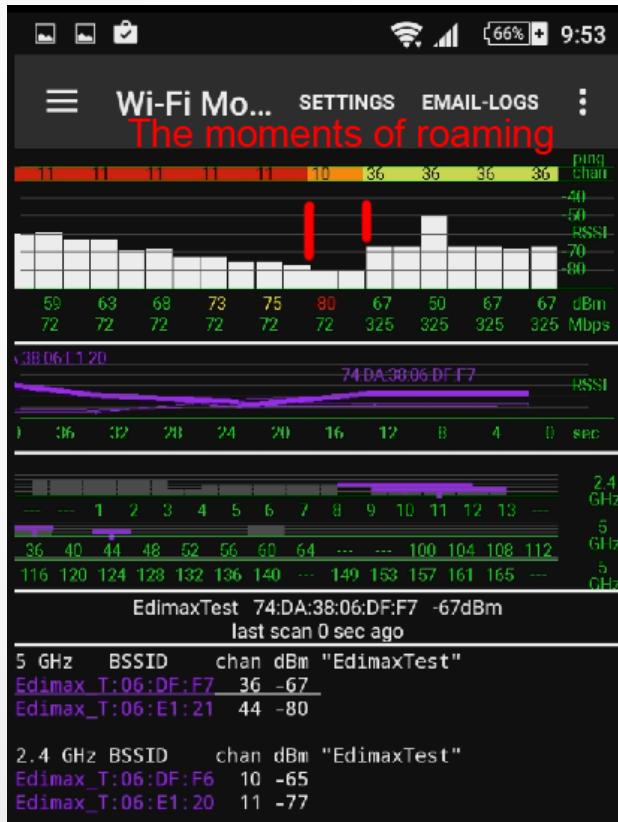

Бесшовный роуминг, 802.11r/k

Решение корпоративного Wi-Fi

Преимущества стандарта 802.11R в бесшовном роуминге

С шифрованием WPA2-Enterprise
(встроенный Radius, планшет не
поддерживает 802.11R)

Время переключения < 100 мс, проходит
незаметно для клиентского оборудования.
Разработана в 2008 году. Реализована в
полнейшей мере в 2013 году.

Roaming в сетях Wi-Fi при ...

Apple Inc. [US] https://support.apple.com/ru-ru/HT202628

Стандарты 802.11k и r

- iPhone 4s и более поздние модели;
- iPad Pro;
- iPad Air и более поздние модели;
- iPad mini и более поздние модели;
- iPad (3-го поколения) и более поздние модели;
- iPod touch (5-го поколения) и более поздние модели.

Поддерживается в смартфонах бизнес-класса Apple iPhone 4S, 5, 6, Huawei G526, Samsung Galaxy S4, Sony Xperia Z5 Compact, BlackBerry Passport Silver Edition

СМС Авторизация

Wi-Fi с sms-авторизацией

полное решение для Российских клиентов

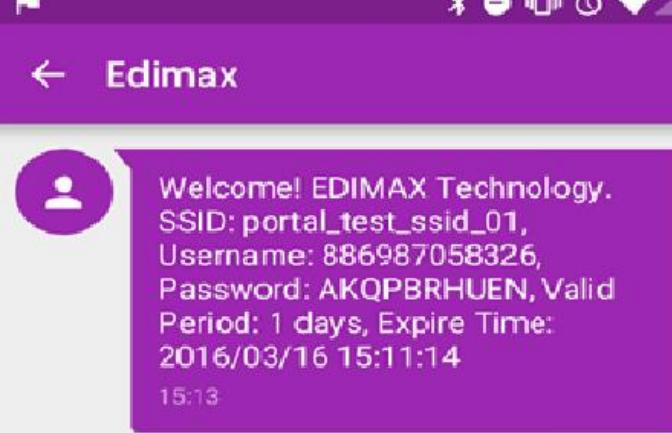

- 1 Выход в сеть
- 2 Запрос авторизации у Точки Доступа
- 3 Идентификация пользователя
- 4 SMS с кодом для доступа к сети
- 5 Ввод кода - и вы в сети!

High Density

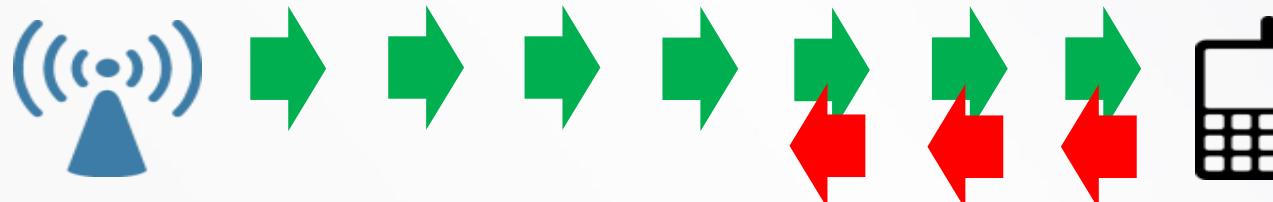

High Density support together with Технологией Band Steering

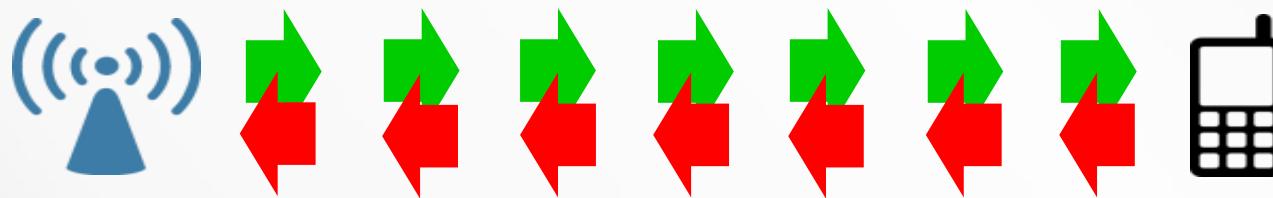

- Поддержка High Density почти не возможна без технологии Band Steering.
- Корпоративные ТД use **band steering** to send 802.11n clients to the 5 GHz 802.11ac band, leaving the 2.4 GHz band for legacy clients.

High power - High sensitivity

Скрытое меню инженера где можно настроить мощность сигнала, диапазоны, для потребности заказчика

High Power

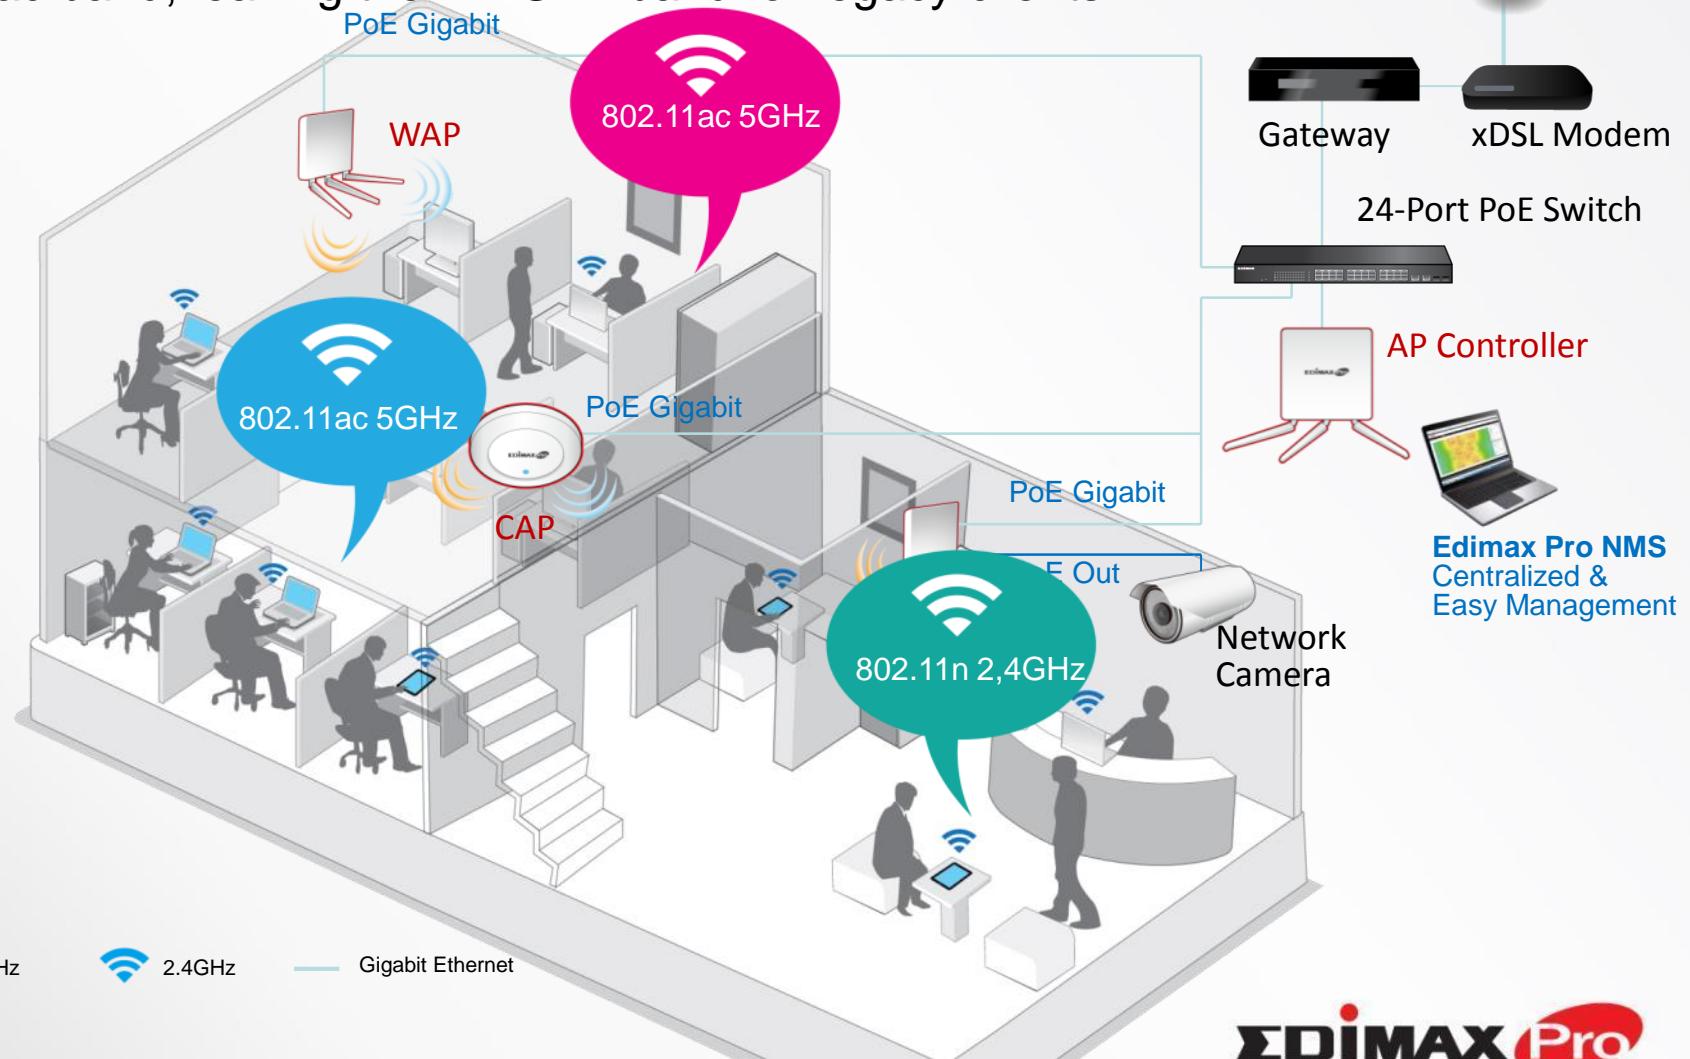

High Sensitivity

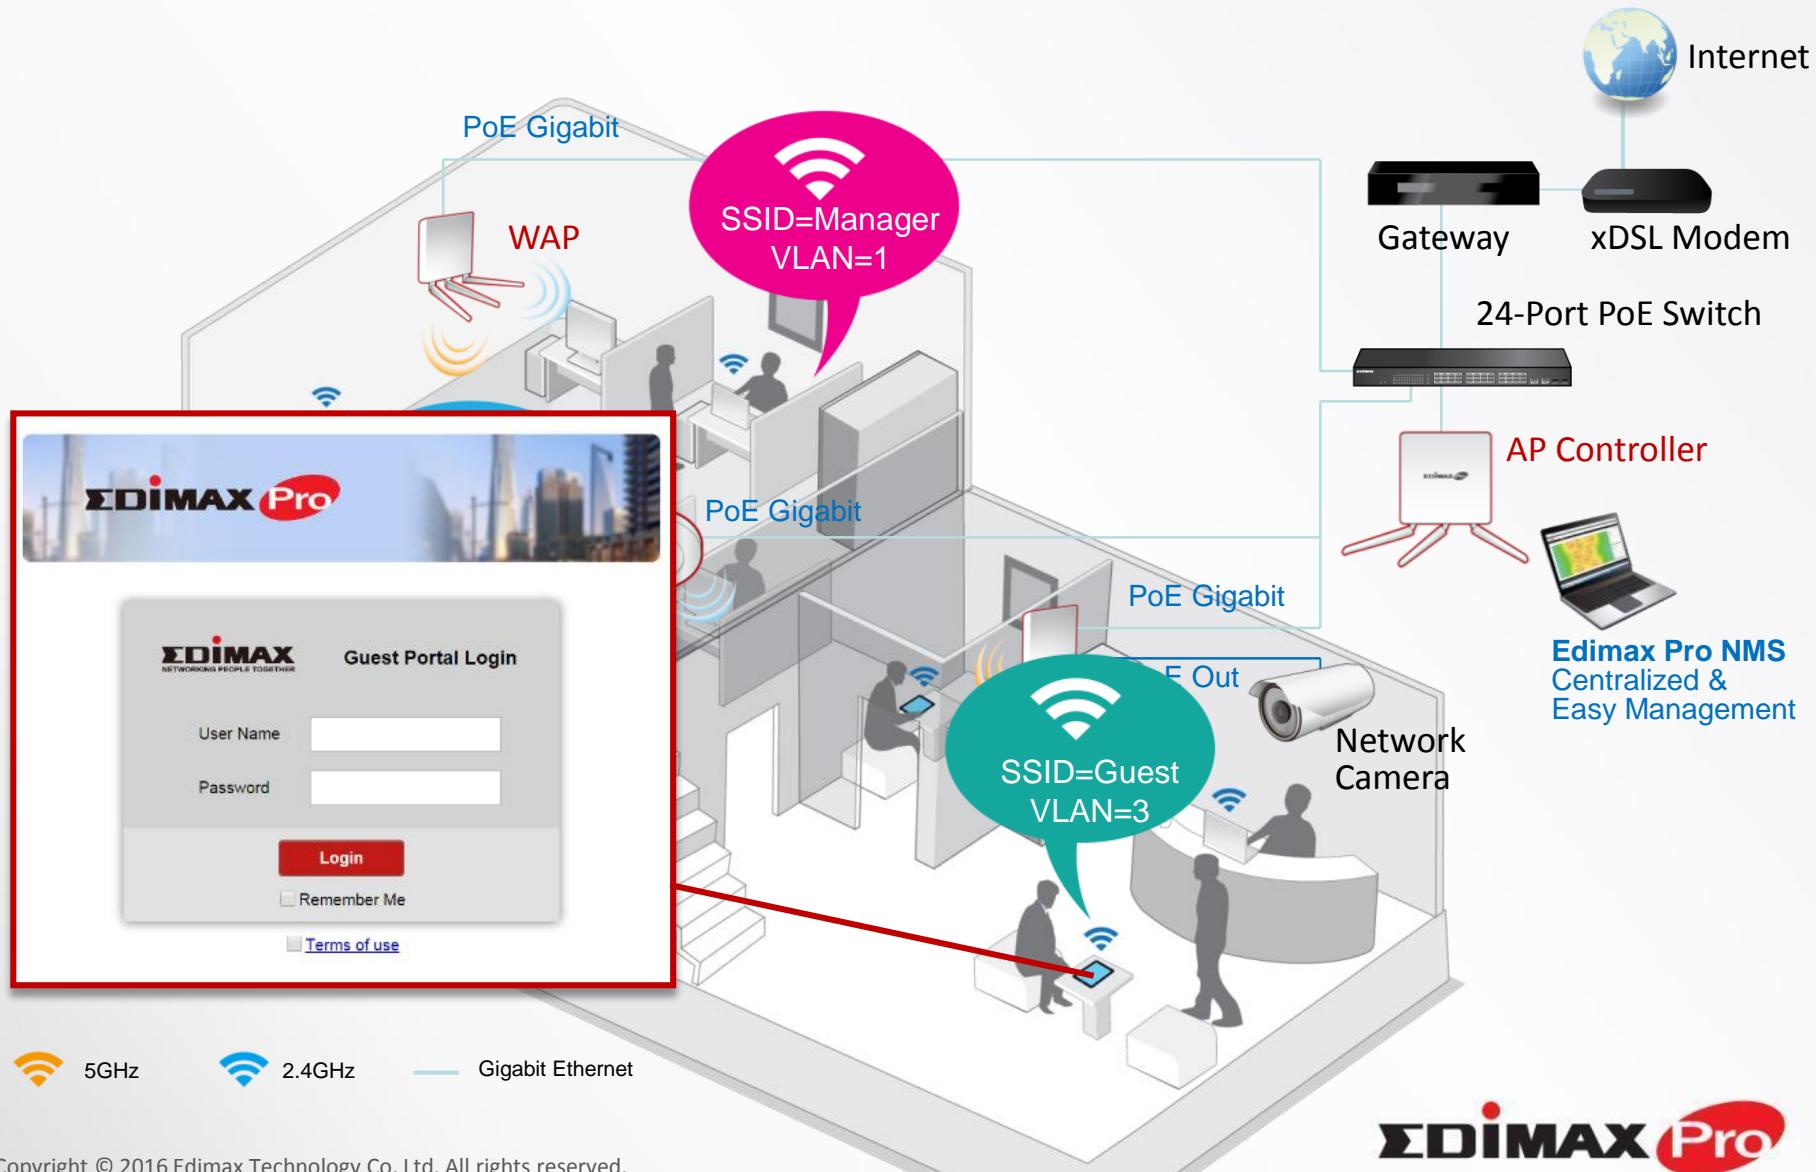

Receiver sensitivity	802.11b	802.11a
	$\leq -93\text{dBm}@1\text{Mbps}$	$\leq -90\text{dBm}@6\text{Mbps}$
	$\leq -90\text{dBm}@11\text{Mbps}$	\leq
	$72\text{dBm}@54\text{Mbps}$	
	802.11g	802.11n(5G)
	$\leq -90\text{dBm}@6\text{Mbps}$	$\leq -90\text{dBm}@MCS0$
	$\leq -74\text{dBm}@54\text{Mbps}$	$\leq -66\text{dBm}@MCS7$

Технология Band Steering

Корпоративные ТД use **band steering** to send clients to the 5 GHz 802.11ac band, leaving the 2.4 GHz band for legacy clients

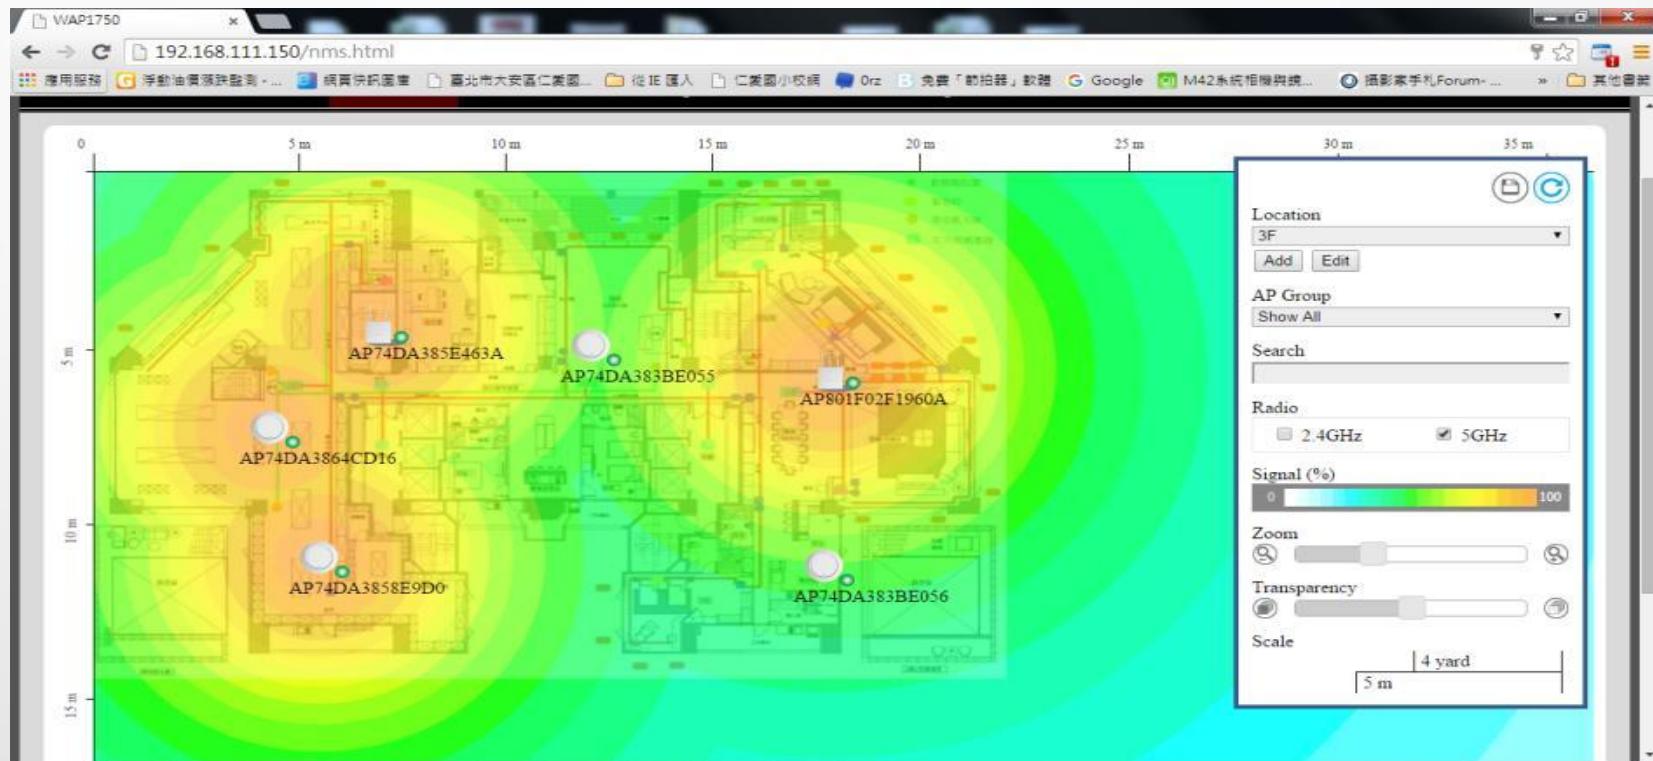

Captive Portal

Zone Plan

The Edimax Pro NMS/APC Controller is an enterprise WLAN management system for administrators to manage all Edimax Pro wireless devices in your environment.

Through Edimax Pro, administrators can easily load maps into the system and see overall coverage of each wireless device clearly.

Google Map

Show real-time AP position and loading on google map. Get real time signal strength and channel utilization data

The screenshot shows the EDIMAX Pro software interface. On the left, there's a sidebar with a 'Menu' section containing a search bar and a '+' button, a 'Control' section with 'Location' dropdowns ('Show All', 'Add', 'AP Group', 'Search'), and a 'Radio' section with '2.4GHz' and '5GHz' checkboxes. The main area features a Google Map of Manhattan, New York. Several access points (APs) are marked with red circles. To the right of the map is a 'AP List' sidebar displaying a table of AP details:

AP ID	MAC Address	Signal Strength	Channel Utilization
1	APT740A30312799	-50	Indoor
2	APT740A30312790	-50	Indoor
3	APT740A30312795	-50	Indoor
4	APT740A30312796	-50	Indoor
5	APT740A30312794	-50	Indoor
6	APT740A30321846	-50	Indoor
7	APT740A30321842	-50	Indoor
8	AP90A090G0030	-50	Outdoor
9	AP90A090G0070	-50	Outdoor
10	APT740A30321848	-50	Indoor
11	APT740A30321850	-50	Indoor
12	APT740A30321840	-50	Indoor
13	APT740A30321836	-50	Indoor
14	APT740A30321838	-50	Indoor

Multiple SSID

- ✓ **16 SSIDs supported in Single Band**

Support 16 SSIDs in 2.4GHz

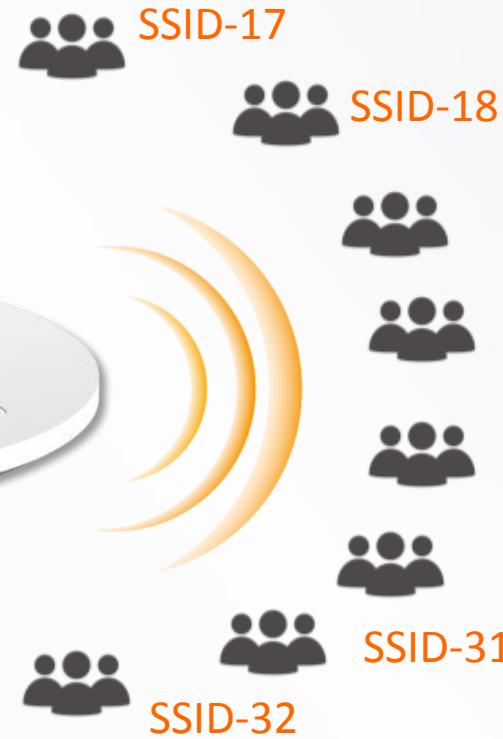

16 SSIDs

- ✓ **32 SSIDs supported in Dual Band**

Support 16 SSIDs in 2.4GHz and
16 SSIDs in 5GHz

32 SSIDs

Клиенты доверяет **ΣDIMAX Pro**

Бизнес центры

- ◆ Local Technical support
- ◆ Direct support from R&D department
- ◆ Product modification according to Project requirements
- ◆ Поддержка при проектированию
- ◆ Installation support
- ◆ Flexible pricing
- ◆ Outstanding ID design
- ◆ Easy-to-use software
- ◆ Global brand with 30 years history

Проект - Ibis Санкт-Петербург

KESCO

Отель

Ibis Санкт-Петербург

Отель категории 3 звезды европейского уровня предлагает к услугам 221 номер, ресторан «Sud&Cie» и бар, конференц-залы и подземный гараж. Для гостей, предпочитающих наиболее удобно расположенные отели Санкт-Петербурга, нахождение гостиницы в центре обеспечит приятное пребывание. Поблизости – главная улица города и Московский вокзал (500 м).

Профиль

Требования

Решение

1. Полное Wi-Fi покрытие, быстрый Wi-Fi
2. Надежный быстрый роуминг для мобильных устройств
3. Простая установка и приятный внешний вид
4. Централизованное управление и конфигурирование

Гигабитный РоE коммутатор на 24 порта, 4 шт

Точка доступа Edimax CAP1200, 86 шт

Контроллер управления Edimax APC500, 3 шт

Розничная цена оборудование меньше 1M рублей

Product No.	Wireless Standard	Product Description
CAP300	802.11b/g/n	2.4GHz Wireless N300 Managed Indoor Access Point(Ceiling Mount)
CAP1200	802.11a/b/g/n/ac	Dual Band Wireless AC1200 Managed Indoor Access Point (Ceiling Mount)
CAP1750	802.11a/b/g/n/ac	Dual Band Wireless AC1750 Managed Indoor Access Point (Ceiling Mount)
WAP1200	802.11a/b/g/n/ac	Dual Band Wireless AC1200 Managed Indoor Access Point (Wall Mount)
WAP1750	802.11a/b/g/n/ac	Dual Band Wireless AC1750 Managed Indoor Access Point (Wall Mount)
OAP900	802.11a/b/g/n/ac	5 GHz Wireless AC900 Managed IP55 Outdoor Access Point
OAP1750	802.11a/b/g/n/ac	Dual Band Wireless AC1750 Managed IP68 Outdoor Access Point

Market Segment

Complete product lines to fulfill your vertical market

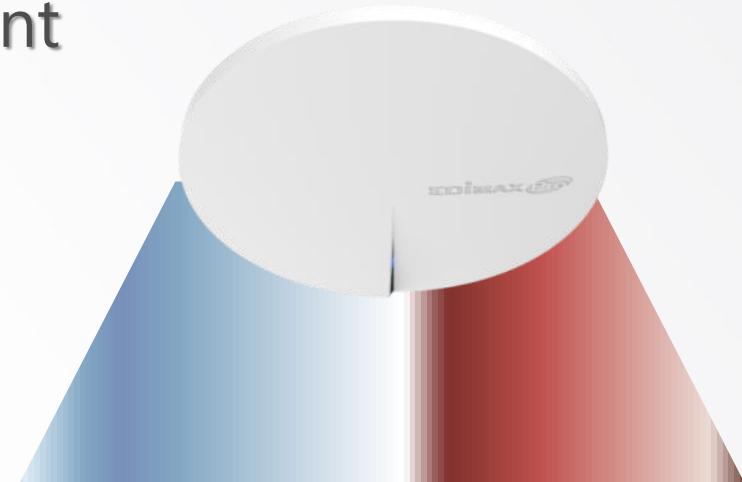

CAP & WAP Indoor solution

CAP-series can be used in an **open area** such as office, Shopping mall, hotel, Conference room ...etc

WAP-series can be used in **covering the wireless dead spot and long corridor or**
used as long-distance AP by changing Directional antenna

CAP1750 Indoor Ceiling-Mount

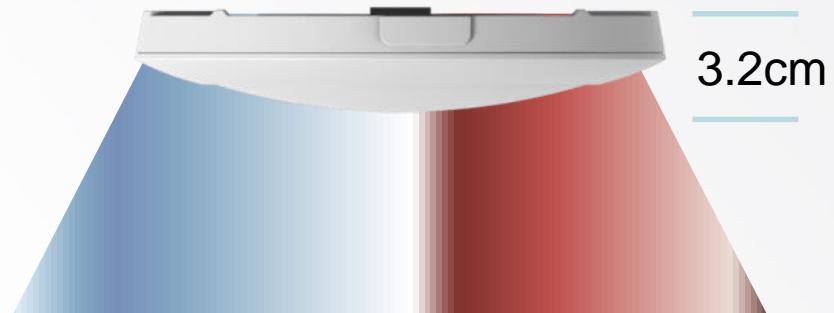

■ 3 x 3 AC1750 Dual-Band Ceiling-Mount PoE Access Point

Features

- IEEE 802.11ac concurrent dual-band with 1750Mbps wireless speed.
- Ultra slim design with [UL94-5VB](#) flame-retardant plastic housing.
- Supports up to [32 SSIDs](#) (16 x 2.4GHz & 16 x 5GHz)
- Fast Roaming
- Supports IEEE [802.3at PoE](#)
- Edimax Pro Network Management Suite (NMS), easy and Intuitive web-based central management suite, can manage up to [16](#) Edimax Pro APs

CAP1200 Indoor Ceiling-Mount

■ 2 x 2 AC1200 Dual-Band Ceiling-Mount PoE Access Point

Features

- IEEE 802.11ac concurrent dual-band with 1200Mbps wireless speed.
- Ultra slim design with [UL94-5VB](#) flame-retardant plastic housing.
- Supports up to [32 SSIDs](#) (16 x 2.4GHz & 16 x 5GHz)
- Fast Roaming
- Supports IEEE [802.3af PoE](#)
- Edimax Pro Network Management Suite (NMS), easy and Intuitive web-based central management suite, can manage up to [8](#) Edimax Pro APs

CAP300 Indoor Ceiling-Mount

3.2cm

■ 2 x 2 N300 Ceiling-Mount PoE Access Point

Features

- IEEE 802.11n with 300Mbps wireless speed.
- Ultra slim design with [UL94-5VB](#) flame-retardant plastic housing.
- Supports up to [16 SSIDs](#)
- Fast Roaming
- Supports IEEE [802.3at PoE](#)
- Edimax Pro Network Management Suite (NMS), easy and Intuitive web-based central management suite, can manage up to [8](#) Edimax Pro APs

WAP1750

■ 3 x 3 AC1750 Dual-Band Wall-Mount PoE Access Point

Features

- IEEE 802.11ac concurrent dual-band with 1750Mbps wireless speed.
- Supports up to **32 SSIDs** (16 x 2.4GHz & 16 x 5GHz)
- High density support up to **100 clients**
- Fast Roaming
- Supports IEEE **802.3at PoE**
- Supports IEEE **802.3af POE out** for an additional POE device
- Edimax Pro Network Management Suite (NMS), easy and Intuitive web-based central management suite, can manage up to **16** Edimax Pro APs

WAP1200

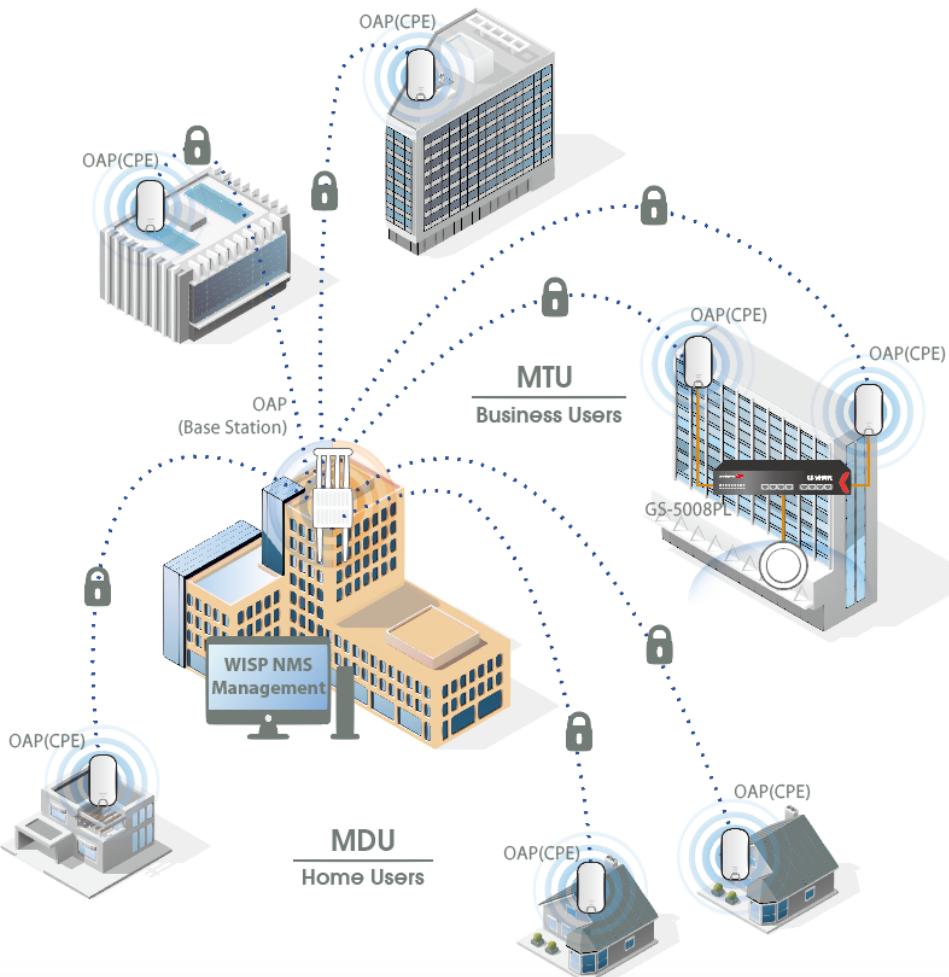

■ 2 x 2 AC1200 Dual-Band Wall-Mount PoE Access Point

Features

- IEEE 802.11ac concurrent dual-band with 1200Mbps wireless speed.
- Supports up to **32 SSIDs** (16 x 2.4GHz & 16 x 5GHz)
- High density support up to **100 clients**
- Fast Roaming
- Supports IEEE **802.3at PoE**
- Edimax Pro Network Management Suite (NMS), easy and Intuitive web-based central management suite, can manage up to **16** Edimax Pro APs

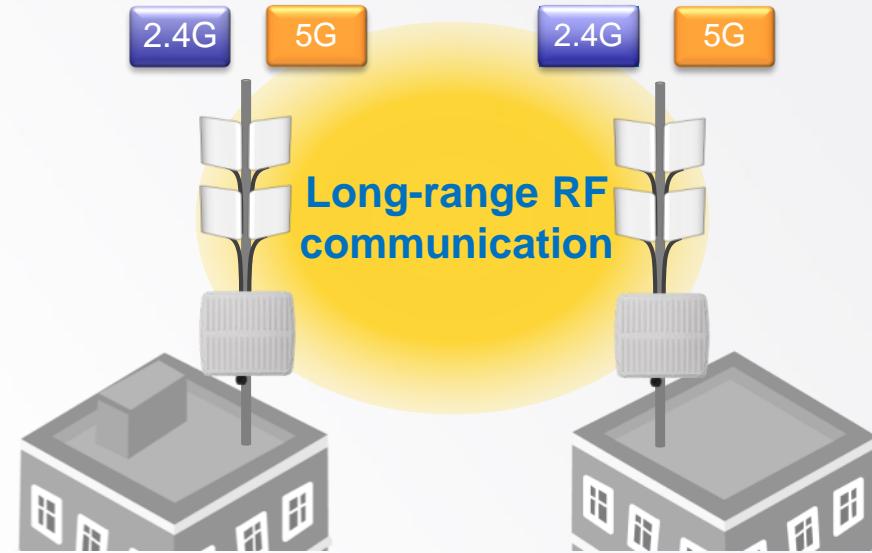

OAP Outdoor solution

OAP1750 can be used as **base station** to form a wireless backhaul(5G) and do wireless service(2.4G)

OAP900 can be used as **CPE** (Customer Premises Equipment) to build last-mile solution and can combine with OAP1750 for WISP to form a complete Outdoor solution

OAP1750

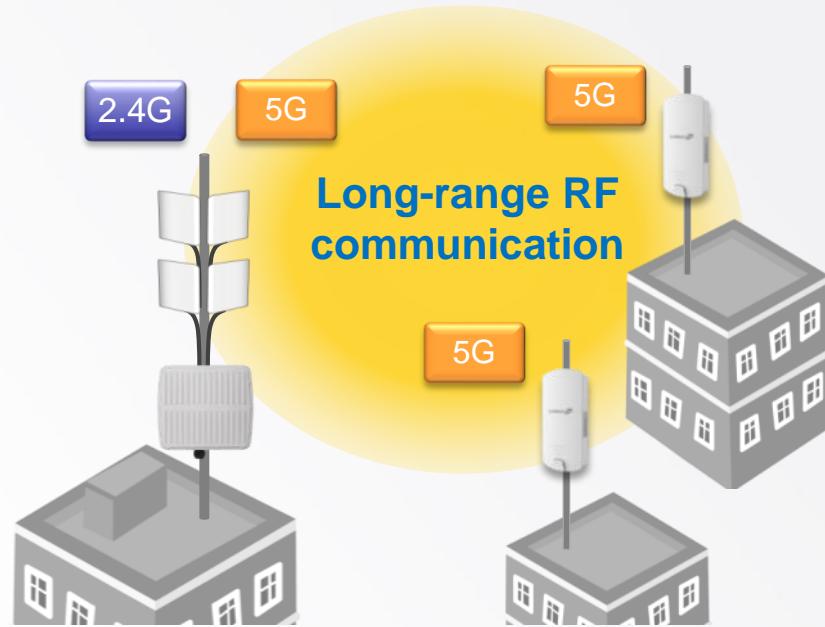

■ 3 x 3 AC1750 Dual-Band Outdoor PoE Access Point

Features

- IEEE 802.11ac concurrent dual-band with 1750Mbps wireless speed.
- Long distance **3-5 KM** wireless transmissions.
- Rust **ASTM B117 IP67** weather shield to survive the most challenging environments.
- Supports up to **32 SSIDs** (16 x 2.4GHz & 16 x 5GHz)
- Fast Roaming
- Supports IEEE **802.3at PoE**
- Edimax Pro Network Management Suite (NMS), easy and Intuitive web-based central management suite, supports AP array architecture

OAP900

■ 2 x 2 AC900 5GHz Outdoor PoE Access Point/CPE

Features

- IEEE 802.11ac concurrent dual-band with 900Mbps wireless speed.
- Long distance **3-5 KM** wireless transmissions.
- Build in **15dBi** dual-polarized antenna and **additional SMA connectors** optional
- Supports up to **16 SSIDs**
- High speed **last mile** connection
- Supports Passive PoE
- Edimax Pro Network Management Suite (NMS), easy and Intuitive web-based central management suite, supports AP array architecture

APC500 Wireless AP Controller

■ Wireless AP Controller

Features

- Manage up to **128** Edimax Pro APs
- Robust AP management
- Group firmware upgrade & restart.
- Channel/RF power/load optimization.
- Local or built-in RADIUS (AAA) support for user and guest accounts
- Suitable for SMB/SME environments

GS-5424PLG

■ 24-Port Gigabit PoE+ with 4 SFP Web Smart Switch

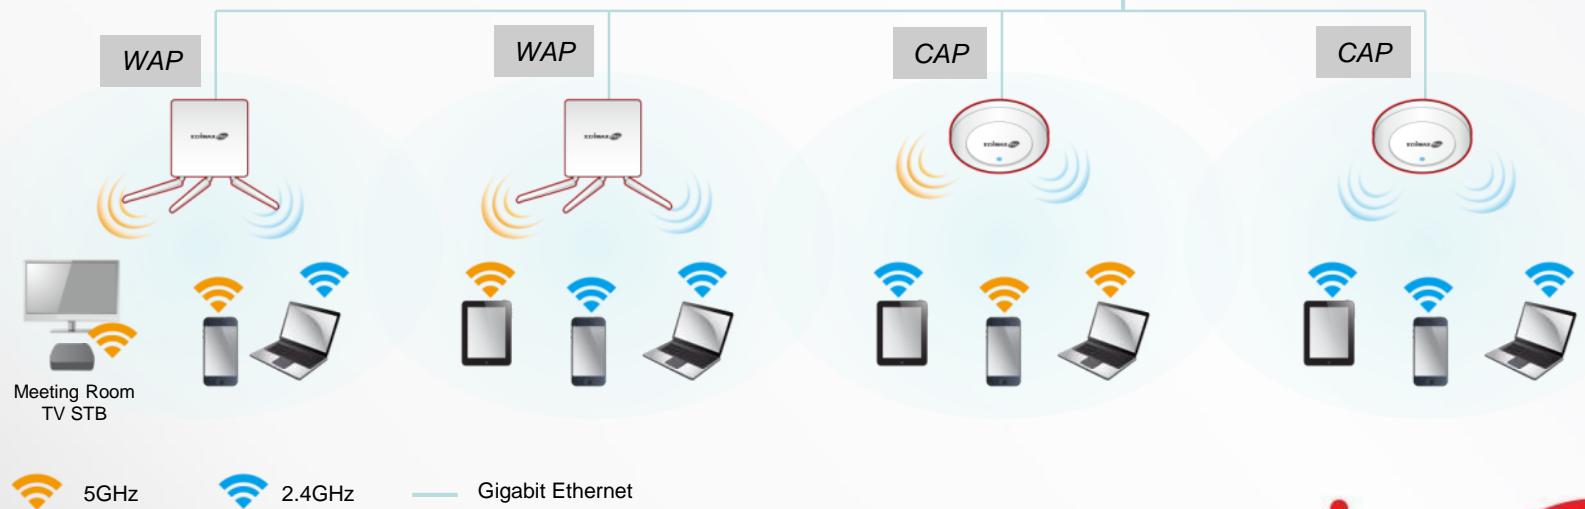

Features

- 24 10/100/1000Mbps Gigabit Ethernet and 4 mini-GBIC/SFP ports
- Up to **30W** per port (total power budget : **400W**) for powering PoE-enabled devices
- Auto-detection of power devices(PD) and power consumption levels
- Auto fault-detection on over/under current & voltage
- **Switch capacity:56Gbps, Forwarding rate:35.7Mbps**
- 8K MAC address table and jumbo frame support up to 9KB
- 19-inch 1U rack-mount

AP Array Technology for Small Offices

- NMS manages up to 8/16 devices and suitable **for small offices**
- Function Include:
 - Master / Slave structure for AP array
 - Local Radius (AAA)
 - Batch Setup / Configuration
 - Group Firmware Upgrade / Restart /
 - Channel / RF Power / Load Optimization

Почему **ΣDIMAX Pro** ?
